Managing Licences

Under this agreement, Institutions will manage the Student Licences via the Admin Console using the Named User option, which allows the distribution and revocation of licences.

At the end of the agreement you will need to renew your commitment or the students' licences will cease to function. If you don't renew you may be required to confirm in writing to Adobe that the software licences have been revoked.

True Up

Please note that this is a new concept for the agreement and was not part of the previous Chest Student ETLA 2016 Agreement.

The Admin Console will allow over-deployment of student licences. If you do over-deploy student licences in the year, then:

1. After the anniversary date, you will be billed for 50% of your annual unit fee, per additional licence deployed.
2. For the remaining years of the agreement, your annual quantity will be increased to include the over-deployed licences.

Example: Institution has purchase 1,000 student licences on joining the agreement in 2020. During 2020/21, an additional 100 student licences are deployed. Thus:

1. After 14/8/2021, the Institution is billed for $100 \times £48 \times 0.5 = £2,400$ for the year 20/21 over-deployment.
2. An additional 100 licences are added to the licence year 21/22, an extra £4,800 per annum.

You will need to report any over-deployment to adobe@chest.ac.uk by July 1st of the licensing year. **This reporting is a new requirement for the 2019 agreement.**

There is an option to not have to pay for any additional licences due to over-deployment in subsequent years but it only really makes sense in the first year, since as well as the 50% fee above, there is an additional 150% cancellation fee, payable at the same time. Please see Section 6.1D of
