

Powering-up digital skills for your staff and students

Practice Labs™
The IT competency hub

What if your students, your staff and your IT team could all develop their hands-on digital skills in a safe, live environment – without any risk to your critical business systems?

Now they can. The Practice Labs Private Cloud hosts hundreds of pre-configured virtual machines containing live-lab environments – from entry-level guided labs covering fundamental computer skills and cyber-awareness through to technical labs and freestyle sandboxes for your IT staff to utilise for testing and experimentation.
