	<p>APA currently have a separate agreement for the APA databases via CHEST, for the read element. For 2024-2026 the read element will continue to remain separate from this, the publish element, with a view to combining with effect from August 2026 when the Read element renews.</p> <p>Institutions may subscribe to the Read element only, but if opting for the Publish element must also subscribe to the Read element.</p>																					
<b>Annual increases</b>	<p>7% into year 1 of this agreement 2024-2025. 0% increase into year 2, 2025-2026.</p> <p>Jisc Read and Publish agreement was APA's first. They now have a better understanding of the actual costs involved in publishing and hosting OA articles and the surrounding logistics through their new and improved OA vendor, CCC's Rightslink. APA transitioned to Rightslink in 2024 to improve their processes and allow for better customer service to consortia customers. This also better accounts for an increase in the number of journals eligible for OA publication: 15 Hogrefe hybrid journals (a 17% increase in the number of journals eligible at waived APCs) and 3 OA titles available at a discount were added to our 2023-2024 renewal with no increase in R&amp;P fees.</p> <p>The proposed fee continues to offer a considerable discount off APA's actual publication costs and standard single-article APC rate (\$4000) while allowing for OA/CC-BY copyright publication of multiple articles by each participating institution. APA hopes it helps that there is a 0% increase locked in for the second year of the agreement (so the 7% increase is an average of 3.5% increase each year) and continued coverage of all APA-published hybrid journals (including Hogrefe). Year 1 increases range from \$74 for 'up to 2,499 FTEs' to \$156 for '60,000+FTEs'.</p> <p>The Annual fee offers a 44% discount off a standard APC for a single article of \$4,000 for an institution with 60,000+ FTEs and a 73% discount for an institution with up to 2,499 FTEs, while allowing the publication of multiple articles.</p>																					
<b>Additional fees</b>	<p>APA offers authors the option to publish their figures online in color without the costs associated with print publication of color figures. For authors who prefer their figures to be published in color <i>both</i> in print and online, original color figures can be</p>																					

	<p>printed in color at the editor's and publisher's discretion provided the author agrees to pay:</p> <p>\$900 for one figure  An additional \$600 for the second figure  An additional \$450 for each subsequent figure</p>
<b>Licence type</b>	Contract and Licence
<b>Annual opt-out</b>	Yes
<b>Invoicing route</b>	Jisc
<b>Currency</b>	US \$
<b>VAT status</b>	<p>VAT at the relevant rate in accordance with government policy will be applied to the Licence Fee(s)/Charges. Under legislation in force at the time of this document, Licence Fee(s) in respect of electronic publications (as defined in HMRC guidance) are subject to 0% VAT with any other amounts subject to VAT at 20%.</p> <p>20% VAT will apply to all publish fees.</p>

<b>Read element</b>	
<b>Collections covered</b>	<p>'Read' access to APA and partner journals is provided via the separate APA Resources agreement via CHEST; <a href="https://www.chest.ac.uk/agreements/apa-oa-publishing-pilot-2023/">https://www.chest.ac.uk/agreements/apa-oa-publishing-pilot-2023/</a></p> <p>Details of the journals/collections covered for 'read' access via the APA Resources agreement can be found on the above link to the CHEST webpage, or in Appendix 1 of this document.</p> <p>Details of the journals eligible for OA publishing via this pilot are also available in Appendix 1.</p> <p>'Read' access is only available via the APA Resources agreement, and this OA Publishing Pilot is only available to subscribers to APA Resources.</p>
<b>Post cancellation rights</b>	<p>In the event an APA PsycArticles customer does not renew the site licence then, without paying additional data fees to APA, the customer has perpetual use rights to the historical content of the database during the year/s of their subscription.</p> <p>Historical content includes content in the database at the time of the subscription and does not include later added or certain back file content. Such perpetual rights also apply to any journals that are transferred to another publisher. APA has arrangements with Portico archiving solutions.</p> <p>Customers may work with Portico to arrange access to the materials they have perpetual rights to after their subscription has lapsed.
